

A SOLUTION FOR EVERY SITE

No matter how challenging the conditions, Contech has a stormwater solution for every site.

Our team of Regulatory Managers, Design Engineers, LEED® Accredited Professionals and Local Project Consultants are here to help. We can assist you in determining the best stormwater solution to maximize land value given your local regulations and site constraints.

The result – an efficient design process, more land space savings and faster permitting.

The Stormwater Management StormFilter®

- Stormwater Management StormFilter® the original, proven media filter cartridge innovation
- Removes suspended solids and dissolved nutrients and metals
- The only product with 3rd party verified TAPE, TARP and NCDWQ PEP field studies leading to WADOE, NJDEP and NCDENR approvals
- Designed for superior longevity

Hydrodynamic Separation Solutions

- Solutions to capture floatables, trash, debris, suspended solids, oil and grease
- Multi-purpose grate inlet, internal bypass and multiple inlet treatment systems reduce footprint and total structures required
- Pretreatment for LID solutions
- Shallow systems for sites with high groundwater or bedrock
- One-of-a-kind screening technology

The Florida Stormwater Association

Leadership in Stormwater Management and Utilities

FSA was organized in 1993 to assist professionals in the public and private sectors as they confront the problems associated with stormwater management, permitting and finance. FSA provides three basic services to its members:

- ◆ <u>Training and Education</u> The Association conducts two statewide conferences, two webinars and over 20 training events each year. FSA's Training Center was created in response to the need for up-to-date, high quality training courses for stormwater personnel in *your* area to save travel expenses. All classes are taught by qualified trainers and fulfill most of the training requirements of your MS4 permit. Visit the <u>Training Center</u> for a complete listing of courses.
- ◆ Communications and Information Sharing The FSA Stormwater Utilities Survey is conducted and distributed every two years. An abbreviated listing of current stormwater rates is updated frequently. FSA's enewsletter "FastTracks" is published ten times a year. FSA's website contains previously published editions of the newsletter, a membership directory, communications tools, regulatory information, and access to our manual on Establishing Stormwater Utilities in Florida.
- ◆ Advocacy The Association is actively represented during the Legislative Session, in front of agencies, and in state and federal courts. We support legislation that is of benefit to stormwater utilities and local governments in the areas of stormwater management and finance. The Association monitors the activities of DEP, EPA, and other state and federal regulatory initiatives, challenges to stormwater utilities, and participates in cases that are of statewide or national importance.

Introduction

This Report presents the results of the Association's eleventh biennial Stormwater Utilities Survey in Florida. Its purpose is to provide information to both managers and policy-makers in state and local government. Trends in the characteristics of the stormwater programs, utility rates and other practices within local government can now be observed by comparing survey results from 1995 to 2016.

Florida has 67 counties and over 410 cities. Short of surveying *every* city and county, it is difficult to determine exactly how many stormwater utilities exist in the state. FSA's best estimate is that there are now approximately 165 local governments that have established stormwater utilities pursuant to Chapter 403, Florida Statutes, or their own home rule powers. One hundred and twenty four stormwater utilities responded to the 2016 survey questionnaire.

We expect the number of stormwater utilities to continue to increase for several reasons: The Florida Supreme Court has consistently upheld the validity of such fees; there is (generally) more public support for funding programs with user fees as opposed to ad valorem or other general taxes; and, the process of implementing Numeric Nutrient Criteria and the multi-billion dollar Total Maximum Daily Load program in Florida is now beginning to take full effect.

Also, to the extent that recent legislative initiatives limit city/county regulatory authority or reduce the amount of property tax revenues available in the city or county general fund, local governments will be more inclined to consider stormwater user fees or increases therein as a way to fund water quality programs.

As one might expect, service areas dedicated exclusively to the city constituted a significant majority of stormwater utilities in part reflecting the relative ease of attaching a user charge onto an existing billing mechanism. Most stormwater utilities are located within a department of public works and have used impervious area as the basis for calculating the fee.

As in earlier surveys, revenue generated from stormwater utilities represents a significant source of funds to address stormwater pollution and flooding problems but it still falls short of being able to address long-term, capital needs. Most jurisdictions report that utility charges are adequate to meet most administrative costs but not for needs associated with capital improvement programs. Whether stormwater utility fees can be raised at a rate to keep pace with the costs of TMDLs and new water quality criteria remains to be seen.

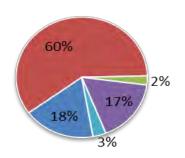

The Association appreciates the assistance of those who completed the survey instrument. We hope that you find this Report to be of value.

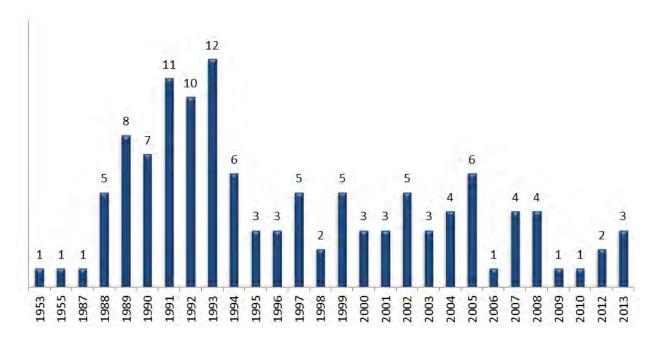

Utility Characteristics

1-1 How is your SWU organized?

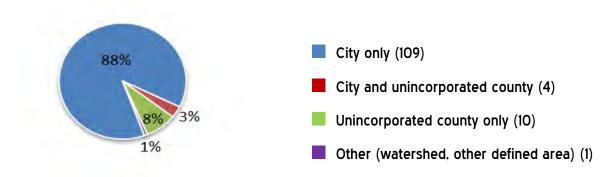

- Separate Department of Local Government (22)
- Combined with Department of Public Works (74)
- Combined with Wastewater Utility (3)
- Combined with other department (21)
- Authority or district separate from local government (4)

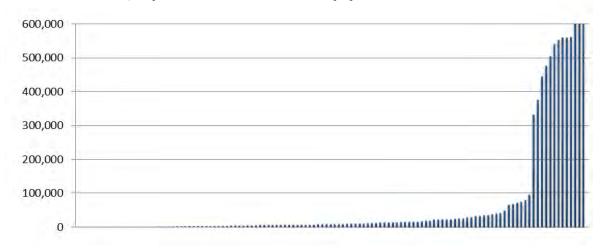

1-2 What year was your SWU established?

1-3 What jurisdiction does your SWU serve?

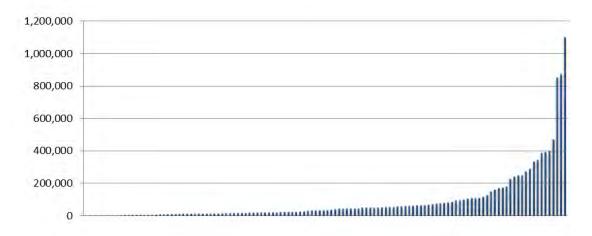

1-4 What is the physical area served by your SWU?

Average area of respondents is 77,492 acres (2014 reported size was 98,250). The chart above does not include the following counties: Lake, Miami-Dade, and Polk.

Bay County 680 City of Jacksonville 559,552 City of Sebastian 8,804 Brevard County 553,634 City of Jacksonville Beach 6,560 City of South Pasadena 384 Charlotte County 540,672 City of Key Colony Beach 285 City of St. Petersburg 37,920 City of Altamonte Springs 6,180 City of Key West 3,370 City of Suart 4,200 City of Altamonte Springs 6,180 City of Issismmee 13,580 City of Swetwater 1,790 City of Auburndale 12,887 City of Lake Alfred 3,200 City of Tallahassee 66,240 City of Board Raton 18,500 City of Lake Marry 6,324 City of Tampaa 75,000 City of Boynton Beach 10,600 City of Lake Marry 6,324 City of Tampaa 75,000 City of Brandeton Beach 640 City of Largo 12,103 City of Tawres 7,027 City of Callaway 6,128 City of Longwood 3,000 City of Titusville 19,500 City of Callaway 6,128		Γ -		1

1-6 How many accounts does your SWU serve?

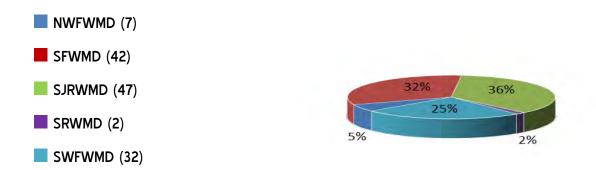

Average is 34,559 accounts: 28,320 are single family and 5,358 are multi-family.

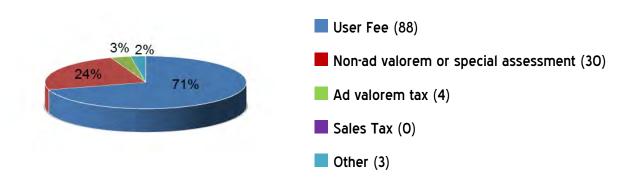

Average is 2,766 accounts: 1,195 business, 575 institutional, 1,596 commercial and 448 industrial.

Utility Fees and Rates

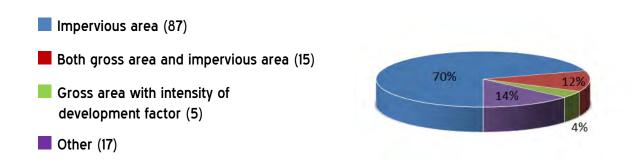

2-1 Within which Water Management District is your SWU located?

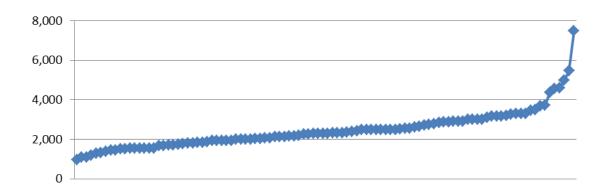

2-2 What is the basic methodology used for your revenue generation?

2-3 What is the general basis for your fee?

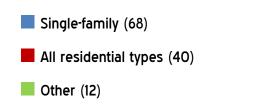

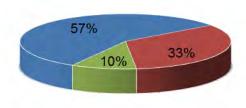

2-4 If impervious area is the fee basis, what is the square footage of your average billing unit (ERU or similar designation)?

Average is 2,842 square feet (average in 2014 was 3,047). Chart above does not include Charlotte County (43,560 sq ft).

2-5 Is the "average billing unit" based upon single-family units only or on all residential types (e.g. single and multi-family, condominiums, mobile homes, etc.)?

2-6 What is your current SWU rate per month?

Average rate is \$6.57 (2014 was \$5.68).

Utility Rate Range: Low: \$0.75 High: \$60.00

2-7 How are the majority of your stormwater charges invoiced?

- Combined on monthly bill for other utility services (80)
- Separate Mailing (4)
- Placed on annual property tax bill (34)
- Other (4)

2-8 What is the total annual revenue generated by the utility fee?

Average revenue generated is \$3,661,411 (2014 was \$3,626,620).

Total Annual Revenue generated by utility fee (sorted by jurisdiction)

2-9 Who is responsible for paying your utility fee?

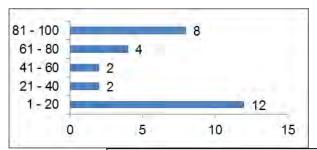

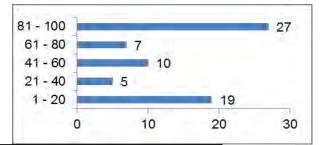

2-10 For properties that are charged a fee based on actual, on-site impervious area (i.e. *not* a customer class average) please estimate how a majority of this information was <u>initially collected</u> and how it is <u>maintained</u> for your billing database?

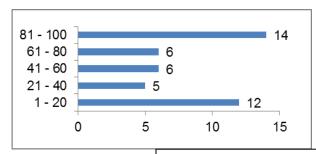

Initially Collected

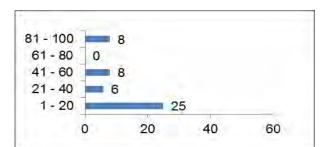

Maintained

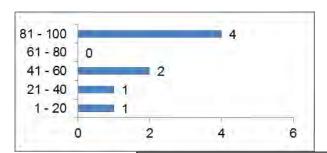

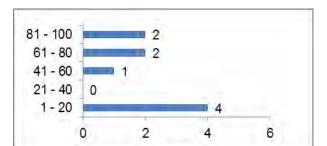

Percent of Parcel Data Acquired from Permit Records

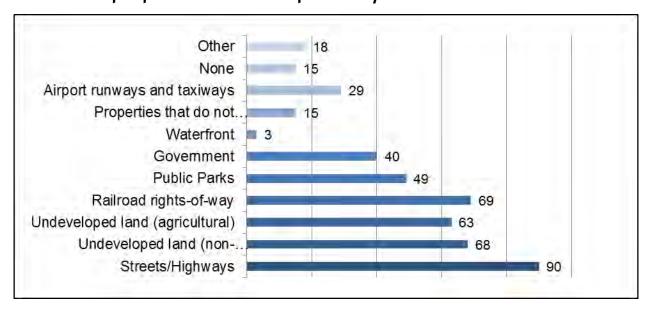

Percent of Parcel Data Acquired from Air Photos

Percent of Parcel Data Acquired from Other Sources

2-11 What properties are exempt from your user fees?

2-12 Please indicate your billing practices with regard to the following governmentally owned properties:

	Exempt	Bill and collect	Bill but don't collect	Not billed
Federal	22	31	4	9
State	23	30	5	9
County	22	36	2	8
City	20	41	3	9
School District	24	31	10	7
Special District	8	34	3	6

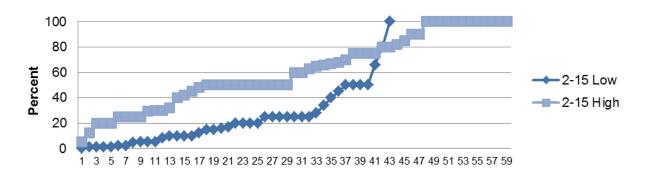

2-13 Of those accounts that receive credits, what is the average percent reduction in the utility fee?

Average Reduction:	28.52

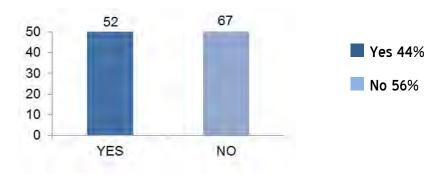

2-14 Of the total number of SWU accounts, how many receive credits?

Reported number of accounts that receive credits:	337,779
Average number of accounts that receive credits:	3,753

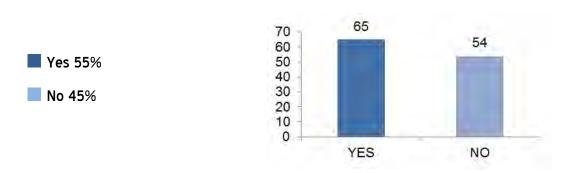

2-15 Of those accounts that receive credits, what is the range in possible percent reductions in SWU fees?

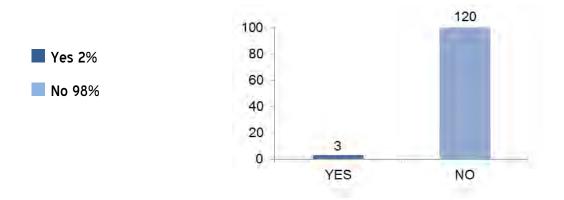

2-16 Are credits provided for private detention/retention facilities?

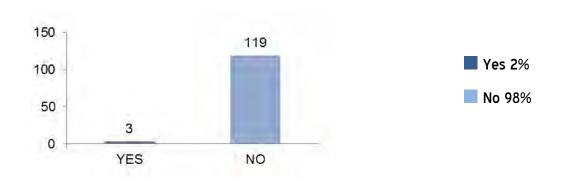

2-17 Are user fees for single-family detached dwellings the same as for individual units in multi-family (e.g. apartments, condominiums)?

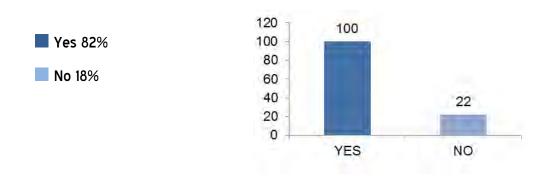

2-18 Do user fees vary by watershed?

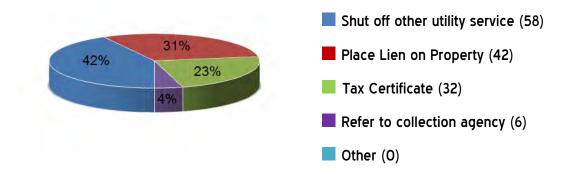

2-19 Are different fees charged within the "zone-of-benefit" of specific capital projects to account for differences in capital costs?

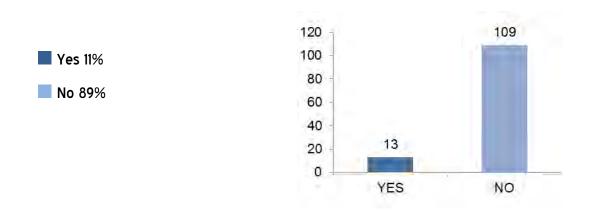

2-20 Does your local code require private detention/retention facilities?

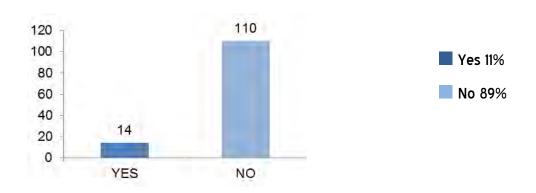

2-21 How is payment of the utility charge enforced?

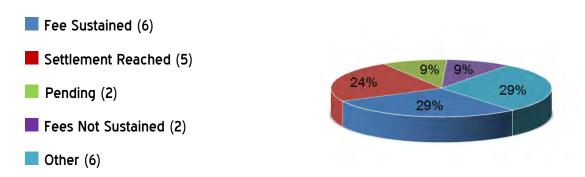

2-22 Were interim rates established during the formation of the utility prior to adoption of a permanent rate format?

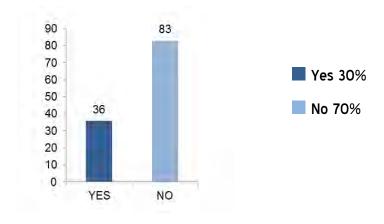

2-23 Have your stormwater fees or assessments faced a legal challenge in court?

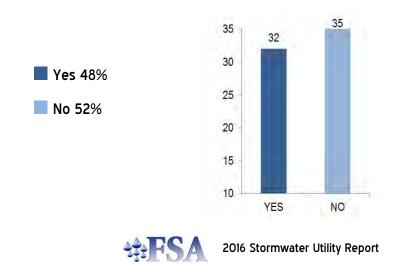

2-24 If your charges have been challenged in court, what was the outcome?

2-25 Has your jurisdiction modified your SWU rate structure to take into account new water quality requirements and corresponding costs as a result of the TMDL program?

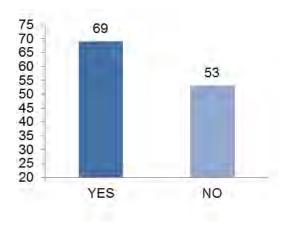

If not, are you actively considering such modifications?

Stormwater Program

3-1 Does your utility use operation and maintenance permits (or other enforcement methods) to require private owners to maintain their onsite stormwater facilities?

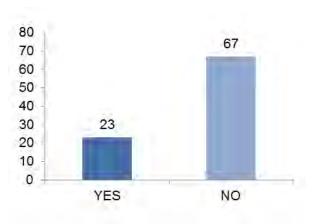

3-2 Does your jurisdiction charge a fee for:

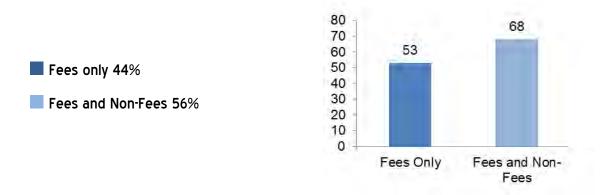

3-3 If your jurisdiction does charge fees for any of the services in question 3-2, does your SWU receive some or all of these revenues?

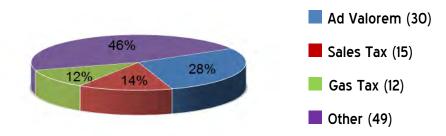

3-4 Is your stormwater capital construction program funded only from stormwater fee revenue, or are non-fee funds utilized?

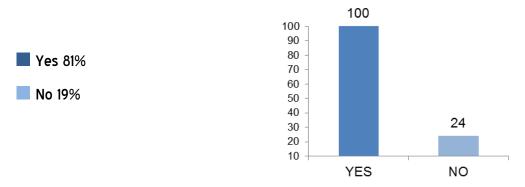

3-5 If non-fee funds are used for capital construction, what is the source of the revenue?

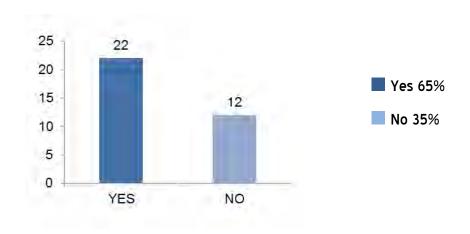

3-6 Please estimate your jurisdiction's capital improvement needs for stormwater management over the following periods of time.

Period of Time	Estimated Need (total)	Average Need	# Respondents
Next 5 Years	\$1,443,660,028	\$12,889,822	111
Next 10 Years	\$3,118,330,701	\$35,037,424	89
Next 20 Years	\$3,105,498,921	\$41,966,202	74

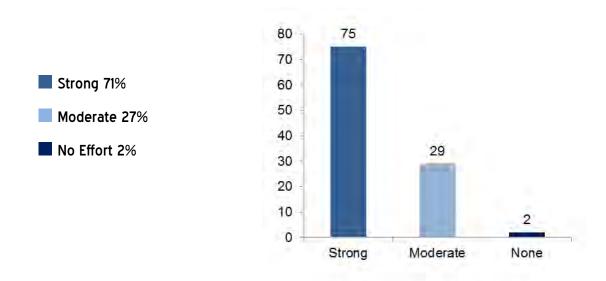

3-7 Does your jurisdiction have an adopted stormwater master plan?

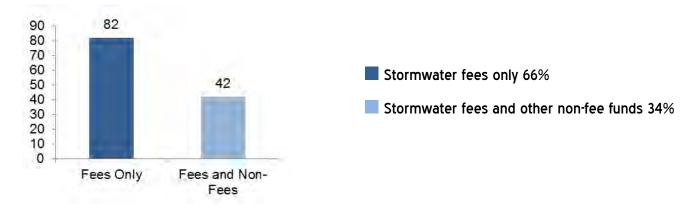

3-8 If your jurisdiction does not have an adopted stormwater master plan (i.e. you answered "No" to question 3-7) is the establishment of such a plan under active consideration?

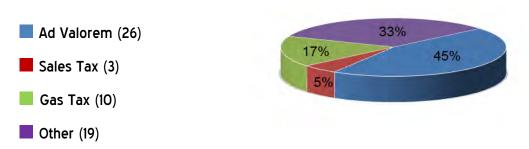

3-9 If your jurisdiction does have an adopted stormwater master plan (i.e. you answered "Yes" to question 3-7), does your jurisdiction make an effort to coordinate your Local Government Comprehensive Plan with your stormwater Master Plan and NPDES Program concepts?

3-10 Is your stormwater operating budget funded only from stormwater fee revenue, or are other non-fee funds utilized?

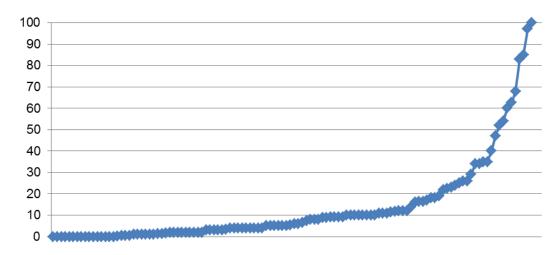

3-11 If non-fee funds are used for operations, what is the source of the revenue?

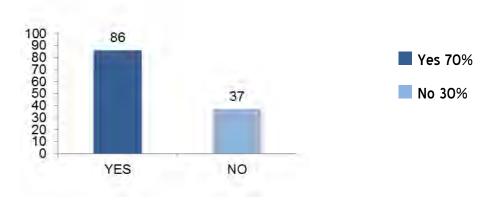

3-12 What is the current number of full-time equivalent employees funded with stormwater fee revenue?

The City of Jacksonville (150), Miami-Dade County (100) and Pinellas County (108) are not included in the graph.

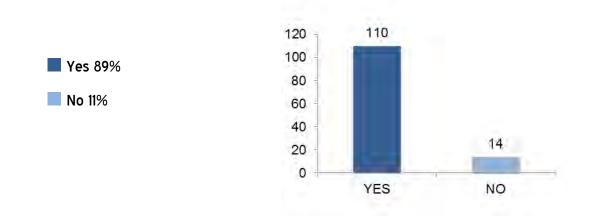

Average reported 15.3 FTEs (2014 was 17.9).

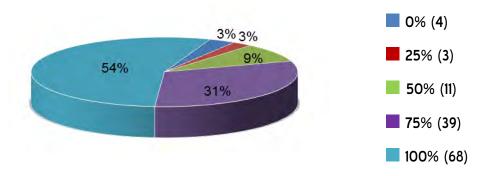

3-13 Does your jurisdiction monitor improvements in water quality?

3-14 Does your jurisdiction monitor improvements in flood protection?

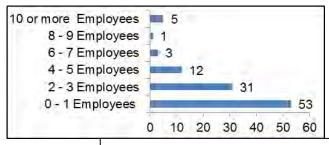

3-15 What percentage of your jurisdiction's stormwater facilities are mapped and inventoried?

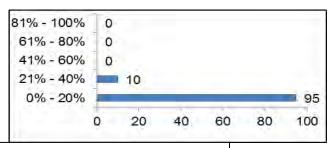

3-16 Estimate the number of employees (FTEs) and the percentage of your total stormwater program's annual budget allocated to the following program categories:

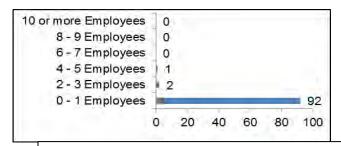

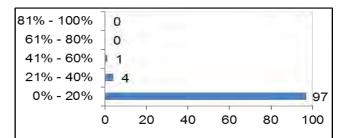

Percentage of Budget

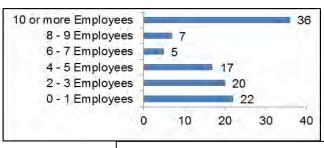

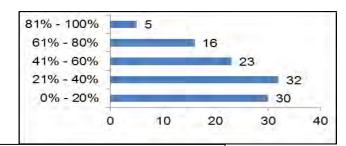

Administration (Management, Billing, Records, Etc.)

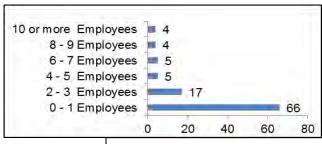

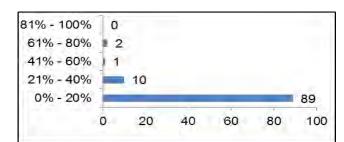

Overhead Charges (Indirect Cost Allocation) Paid to Parent Governmental Jurisdiction

O. & M. (Field Activities)

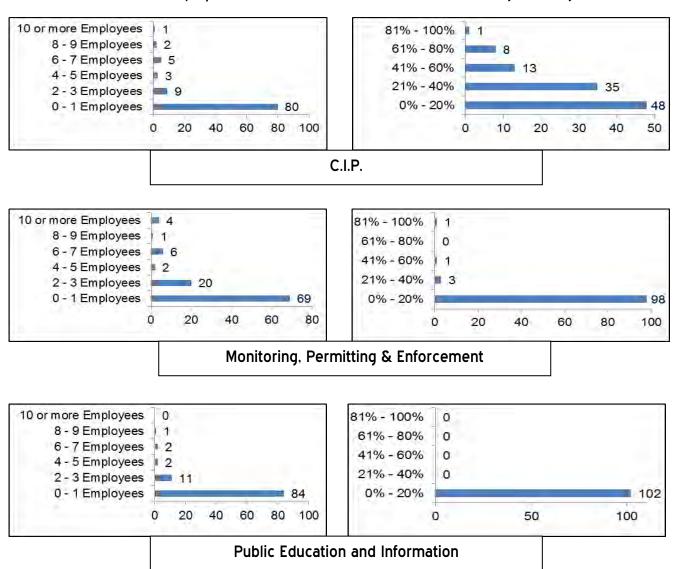

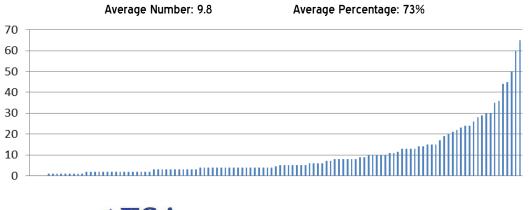

Technical (Planning Engineering)

Percentage of Budget

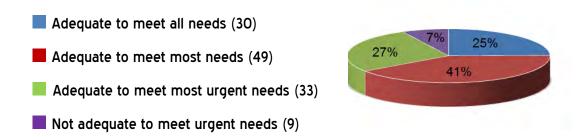

3-17 For Operations and Maintenance (field) personnel, how many received formal training or certification (from FSA, FDEP, FWPCOA, etc.)?

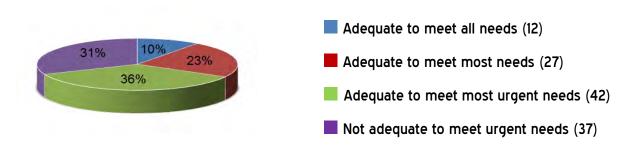

3-18 Is the stormwater fee revenue sufficient to address the following program areas? Administration

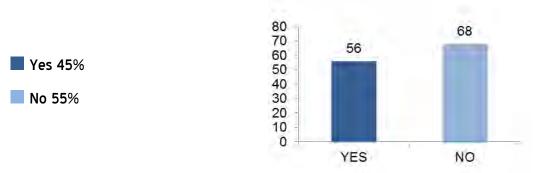

O. & M.

<u>C.I.P</u>

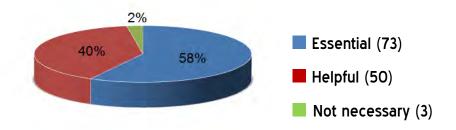

3-19 Does your utility manage the FEMA community rating system flood management program for your jurisdiction?

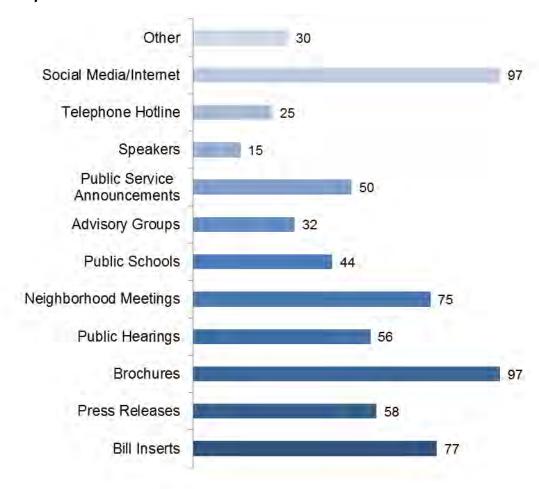

Public Information Effort

4-1 How important is an organized public information/education effort to the continuing success of a user fee funded SWU?

4-2 What media have you found to be most effective in educating the public about utility services, program needs and financing, and citizen responsibilities?

MEMBERSHIP

Membership in FSA is organizational: All employees of a member city, county, consulting firm or other organization are "members" of FSA! There are five categories of organizations that may become members of FSA:

- ✓ City and County Governments
- ✓ Private Sector Consulting and Engineering Firms
- ✓ Water Management Districts
- ✓ Academic Departments
- ✓ Special Districts

For more information about membership, services and dues rates, please visit http://www.florida-stormwater.org/join or call FSA at (888) 221-3124.

More about

PUBLICATIONS

2016 Survey of Stormwater Utilities

The Stormwater Utilities Survey Report summarizes the results of the biennial survey of stormwater utilities in Florida conducted by FSA. Its purpose is to provide information to both managers and policymakers in state and local government. Trends in the characteristics of the stormwater programs, utility rates and other practices within local government can be observed by comparing FSA's survey results. All FSA member organizations and contributors receive one complimentary copy of the Report which is sent to the Primary Contact of the organization. New members receive their copy in their Welcome Packet. Additional copies can be ordered online.

Manual for Establishing Stormwater Utilities in Florida

FSA's Manual "Establishing a Stormwater Utility in Florida" was first published in 1998, and revised in 2003 and 2013. It was initially prepared to assist communities that were considering the development and implementation of a stormwater utility as a means of providing supplemental or alternative funding for their stormwater management program. The current edition is also helpful for those jurisdictions with existing utilities that are considering changes to rates or rate structures. Manuals can be ordered online.

Suntree Technologies Inc. is the ONLY stormwater equipment manufacturer providing Hydro-Variant® Technology, enabling media filtration to be placed online for maximum treatment throughout the storm.

Engineered to capture high volume gross pollutant loads without associated headloss the Nutrient Separating Baffle Box® is the perfect choice for retrofits, new construction or as pretreatment for rainwater harvesting projects.

With 28 patents (and counting) Suntree is leading the industry in innovative designs and proven technologies. From inlet filters to end of pipe solutions, Suntree offers a full range of stormwater management options for your treatment train!
